introducing **EPIC** range in stor:ie

To make this **one | loev | stor:ie** an EPIC one,
stor:ie E and stor:ie P deliver the stor:ie essentials
like like long range and built-to-last metal body
at more affordable prices.

A close-up, front-facing view of a white electric scooter. The scooter has a large, round headlight at the top. Below it, a small black badge with 'RE' and a blue star is visible. A green rectangular badge with the word 'STORIE' in white capital letters is mounted below the headlight. Two orange-tinted side lights are positioned on either side of the front fairing. The scooter is parked on a dark, textured surface, and the background is a blurred, light-colored ground.

a design built around you

Everything starts with people here at BattRE - where we look, listen and design around their needs.

And that's why we decided to reinforce the idea of an electric scooter with built-to-last metal body for added strength and protection. It's the classic meets contemporary kind of Storie!

you're in control

Experience the feeling of confidence and control on every ride, with a high and agile motorcycle-like handling that puts you in command and offers utterly comfortable posture.

the right fit

We let you fit your life into your scooter and make the most of it. With a superabundant seat, you've got ample room to sit comfortably along with a large legroom.

Talking about our scooters being a complete 'support', they have got pillion footpegs and a passenger side footrest too!

stand tall, ready

This tall boy comes packed with a powerful (2kW) IP67-rated BLDC hub motor manufactured by LUCAS TVS. Swift through the city's hustle and bustle with a top speed of 65 kmph.

With a range backup starting from 103 kms (IDC) and going upto 132 kms (IDC) per charge, you will be ready for any challenge, be it grocery shopping or be it delivering smiles.

neo sync

your new way to connect

Storie's Neo Sync feature offers an optimised, precise and seamless experience through its interconnected Motor, Controller, Battery and the dedicated app. Our AI backed-intuitive-display is constantly learning the way you ride and helping you make sense of your commute.

*not available in stor:ie B and stor:ie B

making life easier

To take convenience a notch up, the 5" TFT smart display* is equipped with Navigation Assist*, Distance-to-Empty display, Call notifications* and distinct colours* for each riding mode, i.e., Eco, Comfort, Sport, Parking and Reverse.

The display being your only point of interaction with the vehicle, we made sure the communication is simple, crisp and just-what-you-need.

Easy-to-access pocket at the front, a compact underseat storage at the rear and a larger-than-life legroom - offer you all the space that you would need. Grocery hook and USB charger add to the utility quotient.

Rely on this scooter as much as you want.

for you to indulge

Carefully and ergonomically crafted designs and selected materials indulge the senses, and intuitive AI-backed technology puts you in command. 0.9mm thick steel sheet metal panels, in 7 different skins, on the exterior add to the style and durability quotient. The comfy contemporary upholstery adds a touch of luxury.

charging your scooter doesn't need a station

Take your detachable battery pack
anywhere, be it your home or your office
And charge it just like you would charge
your phone.

you have us whenever, wherever you need

Our only goal, here at BattRE, is to keep you delighted and content with our services. As a result, we provide you with the most unparalleled post sales consumer support, **24x7 Road Side Assistance** at every possible pin code and **Extended Warranty** options. We make owning the scooter as smooth as your ride.

your go-to app

Comprehensive and AI-backed ride analytics at your fingertips help you make sense of your commute, assess your overall riding pattern. Mileage report, last parked location, reduction in Carbon Emissions and Fuel saved - all this at a click? Yes! Commuting has come a long way!

What else? You can personalise your Storie, name it, locate it, lock it, toggle controls and check for its health. Not to forget, you can locate, navigate, book and pay for your nearest RE:charge station all on your BattRE app.

you inspire, we innovate

We created scooters with one single purpose:
to provide you with a scooter that perfectly fits you and your lifestyle

At the heart of your electric scooter is an efficient, responsive powertrain that meets your expectations of a fun, agile drive with exceptional comfort and distinctive minimalist design – built with care for people and the world we share

Everything with the scooter is self-assured and confident. With a distinct monochromatic colour theme, Storie proudly expresses the purposeful soul of achieving minimalism in design.

The scooter is truly and confidently urban.

We also know you care about the future of the planet. Since, BattRE is ideated and incubated with the purpose of achieving performance sustainably, we let you drive sustainably – without compromising on performance.

Our technologies not only help to save the planet, but also give you more enjoyment on every ride

**We happily walk the extra mile
to give you what you want.**
